ABOUT ME

Driven fresh graduate developer passionate about building meaningful digital experiences. With practical experience in Nuxt, Vue and React, alongside a solid grasp of UX/UI design and testing, I love bridging the gap between design and engineering.

EDUCATION

Bachelor of Science in Information Technology (IT)

King Mongkut's University of Technology Thonburi (KMUTT)

August 2022 - May 2026

GPAX: 3.29 (Second Class Honors) | TETET Score: 5

Coursework: Advanced Programming, Advanced Database, Integrated Project

WORK EXPERIENCE

Software Developer Intern

Thai Roong Ruang Technologies Co., Ltd

January 2025 - July 2025

- Engineered internal front-end solutions, including a meeting room booking application, utilizing React with Typescript.
- Spearheaded UI/UX design by creating detailed wireframes, establishing clear visual flows and improving overall user navigation for web applications.
- Architected backend foundations by designing Entity-Relationship (ER) diagrams and authoring comprehensive data dictionaries to ensure database scalability and clear documentation.

PROJECT

DIBDEE Grocery Management System

Capstone Project

October 2025 - April 2026

- Developed a comprehensive, full-stack web application designed to streamline operations for medium-sized grocery stores, centralizing inventory, order processing, payments, and customer management.
- Engineered the complete frontend architecture utilizing Nuxt.js and TypeScript, translating custom Figma UI/UX designs into a highly responsive and intuitive user interface.

SKILLS

- Languages: TypeScript, JavaScript, Go, SQL, HTML/CSS
- Frameworks & Libraries: React, Vue.js, Nuxt.js, Gin
- Tools & Databases: Git, GitHub, Docker, MySQL, Figma
